Ask questions, get answers, no distractions

This site is all about getting answers. It's not a discussion forum. There's no chit-chat.

This site is all about **getting answers**. It's not a discussion forum. There's no chit-chat.

Just questions...

...and answers.

Good answers are voted up and **rise to the top**.

The best answers show up first so that they are always easy to find.

The person who asked can mark one answer as **"accepted"**.

Accepting doesn't mean it's the best answer, it just means that it worked for the person who asked.

Do Swift-based applications work on OS X 10.9/iOS 7 and later?

Will Swift-based applications work on [OS X 10.9](#) (Mavericks)/iOS 7 and later?

Swift code can be deployed to OS X 10.9 and iOS 7.0. It will usually compile on earlier versions.

Get answers to practical, detailed questions

Focus on questions about an actual problem you have faced. Include details about what you have tried and exactly what you are trying to do.

Ask about...

- ✓ Specific programming problems
- ✓ Software algorithms
- ✓ Coding techniques
- ✓ Software development tools

Not all questions work well in our format. Avoid questions that are primarily opinion-based, or that are likely to generate discussion rather than answers.

Questions that need improvement may be closed until someone fixes them.

Don't ask about...

- ✗ Questions you haven't *tried* to find an answer for (show your work!)
- ✗ Product or service recommendations or comparisons
- ✗ Requests for lists of things, polls, opinions, discussions, etc.
- ✗ Anything not directly related to writing computer programs

[Key points]

- ask은 actual problem에 대해서 할 것.
- 특별한 프로그래밍 문제, 알고리즘, 코딩 기술, 개발툴에 대한 질문을 할 것
- 의견이나 토론과 같은 성격의 질문은 피할 것
- 개선이 필요하 질문은 closed 될 때까지 fix될 수 있음

Tags make it easy to find interesting questions

All questions are **tagged** with their subject areas. Each can have up to 5 tags, since a question might be related to several subjects.

Click any tag to see a list of questions with that tag, or go to the [tag list](#) to browse for topics that interest you.

[Key points]

- 질문에는 주제에 관련된 tag 할것 (5개까지 가능)
- tag를 클릭하면 관련된 질문 리스트를 볼 수 있음
